Vestibule is still there, you can take it down, and we will not be rebuilding it

Everything else is ok

Hi:

The vestibule is gone? Meaning it was taken down since my last visit or it was gone my last visit? As long as Len is in agreement with you, the final door can be

what you want. However, I am referring to what we need to do during our construction. We need to properly lock off access to your showroom/business but we need to open up that doorway to allow access of our equipment. Maybe construct a makeshift double door while under construction and then put in the single glass door when work is complete? As far as the tile, we can put down whatever you want.

Vestibule is gone, would like 1 single glass door, would like a single glass door in between Hallway, Also, can I have input on the flooring. We sell tile and cabinets and have been waiting to set our products up in the discussed area. I would like our tile on the floor. Not trying to sell products, just hoping to save us work in the future as we would need to re-tile it

Good Morning. I did forget to ask you about the GNBC office area door. We would like to open that up to get our equipment in and out. We wanted owner/operator opinion on that. Are we keeping the vestibule? Install double doors? Could you please take a photo of the door so we can do some preliminary discussion?

Thanks

Eric

Good Evening:

Thanks for taking the time to talk yesterday. Attached is a copy of the presentation we went over.

Clarification, we are traveling to the Niagara Falls area on Tuesday, May 31st. Our first day on Site is Wednesday, June 1st. I keep forgetting about the holiday on Monday.

Lastly, if you haven't already emailed me, please send me the information for the additionally insured request. Exact property address/SBL info and exact owner information to be listed.

Thanks

Regards,

Eric
